## 第五章 书面表达

## —

Bob, you want to borrow books from the library. That's OK. It is open from 8:00 to 17:00 on schooldays. First, you have to get a library card from the service desk. Each time, you can borrow two books and keep them for a month. If you can't finish reading them in a month, you can borrow them again for another month. You should be careful with the books and return the books in time. If you lose the library books, you'll have to pay for them. I'd like to go with you after class. Any other problem?

## 二

Dear Alice,

I have read an ad for 2012 Summer Dance Parties. It is for junior high school students only. I think it would be very suitable for us because we are students of that grade. Since you and I are dancing fans, it is a good chance for us to make new friends and improve our dancing skills. I hope you will come and enjoy the party together with me. The dance party will be held in No. 8 Junior High School in June 29, July 28 and August 24. The ticket costs 3 dollars. You can phone 234-7869 for details.

Yours,  
Tom

## 三

Dear Coach,

I would like to join the school basketball team and play basketball under your training. You see, our school basketball team is famous in the city and has won many medals in different competitions. What an attraction to me! As a basketball fan and a player of the school basketball team in my native country, how could I stop playing basketball even when I study here as an exchange student in a foreign country? I have 5 years' experience

in my native school team and I'm 1.82 meters in height. I won't let you down, Coach. I will train hard and work with our team well. Please take my request into consideration.

Hoping to hear from you soon!

Sincerely yours,  
Lin Tao

## 四

I took part in an environmental-protection summer camp this summer vacation and paid much attention to the environment problem of our city. We are surprised at what we saw. Some people didn't turn off the water tap after they used it. Many offices turned on the lights even during day time. Plastic boxes and bags were widely used in supermarkets and restaurants. In some neighborhoods, rubbish was thrown away anywhere. Some factories let dirty water out into the rivers. Even our students used too much paper than it was needed.

We have only one earth, and the harms to the earth will last long and do harm to our health in return. So it is important for us to take good care of our environment.

## 五

Dear Bob,

This Sunday is my birthday. I am going to have a birthday party at six in the evening in my house. Could you come to my birthday party? I have invited many classmates to come including other exchange students like you. We'll have dinner together. After dinner, we'll have fun singing, dancing and playing games. It's said that your younger sister Amy has been here with you. Please bring her along to make the party more lively.

Yours,  
Li Lei

## 六

Dear Mr and Mrs Brown,

I have arrived home now. How happy we were when I was in America with you. I will never forget it. Thank you for helping me with my English and taking good care of me. I have made great progress in English since I studied in America. Now, I miss you very much. I hope you'll come to China for a visit. During your visit, you can stay with my family for some days and we will enjoy another happy meeting in different situations. Don't you think that would be very interesting? If you plan to come to China, please tell me.

Best wishes!

Yours,  
Wang Hua

## 七

Bob, I'd like to make the following suggestions about Chinese table manners for you exchange students.

First, don't eat until everyone is there, especially elders. Second, don't be shy to share food from the same bowl on the table, that's the Chinese way of dinner. Sometimes the Chinese host uses their chopsticks to put food in your bowl or plate. Don't refuse it. It's a Chinese way to show their warmth. Next, eat whatever it is and say how delicious it is. Then, don't stick your chopsticks up in the rice bowl. Instead, lay them on your dish. At last, don't talk while eating. If you remember these, you will be a good guest.

## 八

Dear David,

I have got your letter yesterday. In your letter, you said that Chinese is very difficult to learn. I don't think so. If you pay enough attention to the following points, your Chinese learning would be much easier. First, listen to tapes as much as possible and read aloud every morning. Second, take notes in class and listen to the teachers carefully. Next, make sentences with the new words in the text or in class. And practice Chinese writing whenever you have time. At last, watch Chinese movies and learn Chinese songs after class. You can try to do so for a few weeks and it's sure to help you a lot.

Yours,  
Li Ming

## 九

Hello, everyone,

It's my turn to introduce my hometown now. It is a small and beautiful country town at the foot of green mountains in South China. There is a small river running slowly around the town, leaving sweet smell and green sights in people's mind. The sky is blue and clean. It is cool in summer and warm in winter. It's very comfortable. Welcome to my hometown! When you get to my hometown, you will enjoy the delicious food and amusing culture of the native people, and of course, I will be your guide. Thank you for your attention.

## +

October 10<sup>th</sup>, Monday

Sunny

Today some American students came to visit our school. They came from a bilingual school of the USA. They are student delegates. It is a big thing for a foreign language school such as ours. First, we had a good talk and exchanged our language studies. Some American students shared their Chinese learning experiences with us. We told them our ideas about English studies and the Americans thought it very interesting. Then, we showed them around our school. In the end we exchanged souvenirs and took photos together. We had an appointment that we would visit some places of interest of our city during this weekend. What a meaningful day!

## 十一

My friend Carmen prefers musicians who can play different kinds of music. She really likes loud and energetic music because she thinks that loud music can make people happy and excited. However, different people have different opinions. Xu Fei likes musicians who can write their own songs. "They are really cool," he said. He enjoys quiet and gentle music and thinks they are pretty beautiful. He believes that music is the gift of the God. I enjoy the dancing music because I like dancing. I like musicians who can write great lyrics. You know lyrics can remind us of wonderful things. Which kind of music do you like best?

## 十二

How time flies! It's nearly three years since I became a middle school student. Great changes have taken place in me.

As for my personality, I have many friends now though I used to be shy. And my appearance has changed a lot. I used to have short hair and didn't wear glasses. But now I have long hair and wear glasses.

My English learning is not the same as before. Now I listen to the English teacher carefully and take notes in every class. But I used to talk and play in the English class. On weekends, I used to play computer games. But now, I look over my notebook from beginning to the end and make new sentences using the knowledge I have learned. It helps me make fewer mistakes and get better grades.

In a word, I am not what I used to be. I hope I'll be more popular in my class.

## 十三

*English Online* made a survey on what junior middle school students do in their spare time. Here is the result.

After school, 60% of them study and read books or do homework at home. 5% watch TV and 15% play computer games. 20% do sports or play outdoors with classmates or friends.

Things are much better than before, but still about 60% of the students are busy with studying in their free time and only a few students do sports. Study is not the only important thing for us. Health is important for us, too. By playing and doing sports we can keep healthy, and learn things that we can't get from books. So we need more time to do different kinds of activities.

## 十四

Dear Jones,

I am glad to get your e-mail last week. In your e-mail

you talked about the serious problems of endangered animals. I have the same feelings as you. Animals are human's friends. We humans and animals live together in the world and depend much upon each other. Without animals, nature cannot keep its usual working and the living conditions will become very hard for humans. In your e-mail, you mentioned some endangered animals of the world. I will add Chinese pandas and south China tigers to your list. Animal protection is one of the biggest problems in environmental protection. We should do what we can here and now. For example, we can work together to promote the importance of animals and call people's attention to protecting the common birds, dogs, cats in our daily life. If not, these animals will become endangered in the future. What's your idea about what we should do now? Please let me know soon.

Yours,  
Jim

### 十五

#### Love Yourself, Love Your Eyes

June 6 is National Eyes Caring Day. The theme is Caring for Eyesight.

I think good eyesight is very important to everyone, especially to our middle school students during our growth time. Poor eyesight may bring us trouble in our daily life and study. We hope every student can form good habits of using eyes from now on.

Some students think they've already had poor eyesight, so it's no use caring for it any more. But remember, your eyesight may be even worse if you don't pay much attention to it. Better late than never. To protect our eyes, we shouldn't read books under the strong lights or weak lights, and we should keep doing eye exercises.

So love yourself, love your eyes.

### 十六

#### My Dream

When I was a little girl, my mother used to tell me stories about the moon. So I often dream of becoming an astronaut in the future.

As an astronaut, I can walk in space and maybe I can meet living creatures there. How exciting it must be!

In fact, it is not easy to be an astronaut. It's a great challenge to me. So I must take exercise every day to keep healthy. I am going to choose the right subject at the university, study very hard and try to learn more about space. I would like to do anything to realize my beautiful dream.

### 十七

#### Robert's Activities at His Free Time

Robert is a student of our school. In order to know something about students' daily activities, I interviewed him yesterday. Here is what he told me.

He spends most of his time on study after school. He reads different books every day and does homework three hours a day. What hard work for him after having seven to eight lessons at school! As a result, he has no time to watch TV and hardly does housework. But it's good to help mother with housework. He goes to the movies once a month and surfs the Internet once a week. And he tries to find time to do exercises five times a week to keep fit. It's important for students to study well. But we should also spend time doing sports. (By Jim, reporter from the *School English Newspaper*)

### 十八

#### Better Eating Habit for Bob

I think Bob's eating habit is not healthy. Usually he has no breakfast in the morning. Without breakfast, one would not have enough energy during the morning and it's bad for his health. Besides, in his diet we find too much sweet food and no vegetables, which perhaps will explain why he is so fat at such a young age. The supper time is another problem for his health. He should have his supper during the dinner time. That is to say, put supper and dinner into one. If he really wants to eat something during the night, fruits would be a better choice.

As for exercise, I think he should do sports everyday, not only on weekends. He'd better walk upstairs instead of taking the elevator.

### 十九

Dear Paul,

I really feel worried about you. You used to do well in your study and took an active part in the school activities. But now you are so crazy about computer games that you have no interest in your study and don't listen to teachers carefully as before in class. Also, you don't hand in your homework in time.

Perhaps playing computer games may make you feel happy and relaxed, but if you spend too much time on it, you will have less time to study. And as everyone knows, it will be bad for your health, too.

I hope you can keep balance between your study and computer games. Or you can take on other hobbies instead of computer games. Why not join some outdoor activities when you feel bored?

As your friend, I'll be glad to share your happiness and sadness.

Best wishes!

Liu Fang

### 二十

We had a discussion about whether students of Grade Nine should take exercise last week.

My classmates have quite different ideas. Some students think that we should take all kinds of exercise ev-

ery day because exercise can make us stronger. Sports can help us relax and study better. But other students believe that taking exercise will make us very tired or too excited. It is a waste of time and bad for our study. We should spend all the time on study.

In my opinion, we should often take exercise in our free time, so that we can keep in good health, and it will be good for our study.

### 二十一

Dear John,

I got my report card yesterday. I was very happy because my math teacher said I was very hardworking. And my English teacher said that I was good at listening. To my surprise, my Chinese teacher thought I could do better. But I think I'm really good at Chinese. Well, my music teacher said that I should do better. Another disappointing result is from my P. E. teacher. He thought I was a lazy student. I can't stand that because I take exercise every day after school. Anyway, I will keep the teachers' ideas about me in mind and try to do better in the next term. What about your report card?

I'm looking forward to your letter.

Yours,  
Ma Ming

### 二十二

Dear Mr Wang,

I'm glad to tell you something about my school life. My name is Zhang Hong. I study at No. 20 Middle School, my school is not only modern but also beautiful. The teachers in my school are so kind and hardworking that I love them very much. Of all the subjects, I like English best, because it's interesting and I like English songs. My favorite sport is basketball. My friends and I used to play it together after class, but now we hardly have time to play it. Every day we have too much homework to do.

Although my school life is a little boring now, I know I should work hard at my lessons and make good use of time. As a student, it is my duty to try my best to deal with each challenge in my school life.

I hope this letter can help you.

Yours,  
Zhang Hong

### 二十三

Now more and more people start to smoke at a young age. That is really bad for their bodies. It is reported that people who smoke are more likely to have cancer. Some young people think it's very cool to have a cigarette in their hands. That's why they start learning to smoke. Even some of their parents smoke a lot. So there are at least four reasons why adults should give up smoking. First, they should set a good example for their kids. Second, smoking

is bad for their health. Third, smoking wastes money. And at last smokes pollute the air. Please give up smoking as soon as possible for yourselves and families!

### 二十四

Dear Miss Happy,

I'm in Grade Nine now. I'm stressed out because I meet a lot of problems. Every night, I can't get enough sleep because I have a lot of homework to do. Since I have to stay up late, I feel sleepy in class very often. I am always unhappy and get angry easily. I often argue with my parents and classmates on nothing important. What's more, I am forgettable. I can't pay enough attention to my lessons.

The final exam is coming! What should I do? Can you help me?

I'm looking forward to hearing from you.

Yours,  
Li Huan

### 二十五

If I have time and money, I'd like to go to mountains for a visit. I was born and grow up in the city. I'd like to go to mountains such as Mount Tai or the Jinggang Mountains to see different sights. There, we can climb the mountains and sit on the grass under the big trees. Or even we can camp in the mountains with many animals as our neighbors. The Mount Tai or the Jinggang Mountains are also historical spots. We can enjoy the famous stories with real scenes there in our eyes. What fun it is looking at the big trees as tall as the buildings! We can also go to the mountain markets and buy some native products to keep our memory. Mountain visit is my first choice.

### 二十六

The Seventh National City Games was held in Nanchang. In order to go on keeping the road in good order, we would like to remind you of the traffic rules. When you walk, you should walk at the side of the road. Always be careful and look left and right before you cross the road. If you like riding, don't run through the red traffic lights. Don't ride too fast. If you ride a motorbike, remember to wear your helmets. If you drive a car, you should slow down at the traffic lights. You must always wear a seat belt. You mustn't drink when you drive a car. When many passengers are waiting for the bus, please stand in line and wait for your turn patiently. Don't push others. Don't get off the bus until it has stopped.

Let's try our best to make our city more beautiful.

### 二十七

Dear Rose,

Thank you for your letter. How is it going these days?

I heard that you are collecting how people celebrate their birthdays all over the world. This is how Chinese students celebrate birthdays. We always hold a birthday party at home or in a restaurant. Young people would like to celebrate their birthdays with their friends. However, elder people like to share this special moment with their families. On this special day, he or she can receive a lot of gifts and best wishes. I think we should thank our mothers on this day instead of celebrating for ourselves only. Our mothers brought us to the world and brought us up by heart. We should show our love to them on our birthdays.

I have to stop here now because I have a lot of homework to do.

Write soon. Best wishes!

Yours,  
Li Ming

B)81-85 CABFE

### 五、 Paper Books or E-books?

It's reported that all schools in Korea will use e-books in 2015. Many people think this is good news because e-books have many advantages. Most importantly, they are good for the environment, since they can save lots of paper and trees. Besides, they are very convenient. To get a paper book, one has to spend a lot of time searching for it in a bookshop. But we can find e-books very quickly on the

computer. With e-books, our teachers needn't write on the blackboard and we needn't clean the blackboard every day.

However, paper books also have some advantages. With paper books, we can make notes easily. It will be good for us to practice handwriting. It won't do so much harm to our eyes as e-books do.

I prefer e-books. It can make us enjoy life better. But e-book makers should do a lot of things to improve them so that they won't do harm to our eyesight.

五、 Good morning, everyone! Today I'm going to talk about fire accidents and the ways to protect ourselves.

Usually fire accidents are caused by carelessness. For example, some children like playing with fire. Some of the people leave the stoves on while they are away. Some people don't use the electricity safely and some set off fireworks carelessly.

What can we do to protect ourselves when there is a fire? First, don't be afraid. We should keep calm and be brave. We can pour water over ourselves and try to get out of the building as soon as possible. If there is too much smoke, we should crawl on our knees. We mustn't use the lift. We can also use the fire hydrant in the building to put out the fire if possible.

That's all. Thank you very much.
