五、 Friends can be classified into two kinds, good friends and bad friends. Bad friends lead us lost and may destroy our life, while good ones drive us towards the right and make our life successful.

We should make more good friends. In my opinion, ideal friends should be hard-working, modest and loyal. When you need help, they will stand beside you and be glad to give you a hand. Also you can share your happiness and sorrow together.

What's more, ideal friends can share something but they also should keep their own secrets. My ideal friends should have something in common with me, at the same time something special. In this way we can attract each other and learn from each other.

五、Dear Kate,

I'm glad to have received your letter. Our holiday life has changed a lot. As you know, we Chinese students have a lot of homework to do. Studying is still important to us. As we all know, all study and no play makes Jack a dull boy. So relaxing is an important part in our life, too. We do sports or meet friends from time to time instead of staying at home.

Besides, we often help our parents do housework and farm work. We not only help our parents, but also

go out to take an active part in social activities as volunteers. We find great pleasure in helping others in need.

Best wishes!

Yours,
Liu Wei

五、 Sports is good for our health. In collective sports like basketball, volleyball, or football, we will learn the importance of cooperation. While taking part in sports games, we will try our best to win. Sports can also help us relax after a period of exhausting work. However, as the saying goes, "there are two sides to everything", and sports is without exception. We may hurt other players or ourselves if we are not careful enough when taking part in sports activities.

Sports is also a good way for people to know each other and can improve friendship between people. So long as we are careful enough, sports can do us nothing but good.

五、 How to Keep Our Life Safer

Hello, everyone! I'm Jiang Li from Class One Grade Nine. My topic is about safety. Safety is the first. There is some advice we must remember: First, when you cross the road, we must obey the rules. We mustn't cross the road when the light is red. We must wait until the light turns green. Second, when we are hungry, we can't drink too much cold water, or eat things that are unhealthy. Third, when we play games with our classmates, we should be careful not to hurt ourselves or others. Don't play in the street. Fourth, don't talk with strangers. Don't follow a stranger to any strange places. That's all. Thank you for listening.

五、As time goes by, western festivals are popular among Chinese people, especially the young. I think it is good to celebrate these western festivals.

Western festivals have many advantages. First, we can know more about other countries' cultures by celebrating these western festivals. Secondly, the western festivals can make people relaxed. In the modern society, as people have too much pressure, western festivals provide more chances for people to get together to feel relaxed.

In a word, western festivals can do us a lot of good. So we should celebrate these festivals actively.

五、Dear John,

I'm glad to hear from you. I will tell you something about Jiujiang city. It lies in the north west of Jiangxi Province. It's very beautiful. It's a city with a long history and has a population of 650,000. There are many places of interest, such as Mount Lu. Mount Lu is very famous for its beautiful waterfalls. And It's very cool in summer here. What's more, great changes have taken place these years. We have built many tall buildings and wide roads. Also, there is an intercity highspeed train between Jiujiang and Nanchang. It will only take you about an hour to get there by train.

Wish you a good trip.

Yours,
Xu ming

五、

My Ideal School

I want to enjoy ideal school life. I hope my ideal school has a big library, a swimming pool and a tennis court.

What's more, we can do any activities after school or at weekends. We expect to do a little homework on weekdays. And we don't have to do homework on weekends. Besides, every month, we'd better go on a school trip to a museum or go to the cinema.

As for the school rules, everyone can show his personality(个性) in an ideal school.

I wish I could enjoy ideal schools.

五、Dear Liu Min,

I'm glad to hear from you. I think some of us have the same trouble like you. Perhaps you may do like this:

Don't get angry easily, and always be happy. It's important to do so. If you're pleased, others will be happy too. So you wouldn't quarrel with others. Then, if others are in trouble, try your best to help them. Giving is happier than taking. If you often help them, I'm sure you'll get on well with them.

The most important thing is to learn how to work with your classmates. At the same time, you can learn

something from others. It's a good chance to communicate with your classmates.

Also, try to smile more. If you do so others will smile to you, too. You should often talk your ideas with your classmates.

I hope what I said can help you.

Best wishes!

Yours,
Janet

五、Dear Headmaster,

I'm very glad to write a letter to you. These days we are talking about how to have a better school life. Here are some of my suggestions. First, I hope our library can be open more often and our school can organize more activities. Besides, we can have more time to do sports. As for our teachers, I hope they will be our friends and make classes more interesting. And if they can talk less but more clearly in class, we will be more interested in studying and have more time to practice. What's more, I hope they will give us less homework and finish classes on time.

I hope my suggestions will be helpful. Thanks for reading my letter!

Yours sincerely,

Tim

五、The person that I want to Thank Most

Hello, everyone. In my life there're lots of people I want to thank, but the person I want to thank most is my mother.

Once I argued with my friends, mum told me to say "sorry" to friends. She told me friendship was one of the most important things in the world. When I was upset about bad grades, she told me that everyone would make mistakes in exams. She also told me that I would be successful if I put my heart into my study.

I remember that day when class finished, it was raining. I saw mum waiting outside with an umbrella. And on our way home, she held the umbrella for me, but got wet herself. I was moved deeply...

I think we should learn about thanksgiving, so I will study harder and learn to care for my mother. I hope she'll be happy and healthy forever!

五、 Most middle school students have an MP3 or

MP4 now. They can enjoy music at any time. Can it affect their studies? Let's look at the result of a survey in Class 1, Grade 9.

60% of the students have an MP3, and 95% of them think it's all right for students to have MP3s. 65% of them said they agreed to use MP3s at school. Half of the students listen to MP3 after class or while doing homework. 28% of them listen to it on the way home. 22% listen to it at any time, even in class sometimes.

I agree we students can have an MP3 or MP4. In a way, music which we like can make us feel relaxed and study better. But we must use it at proper time.

五、Traffic Situations

Take a look at the road situations of today. Quite a few pedestrians and cyclists behave as if there were no traffic rules at all. They cross roads anywhere as they like, some even climb dividers in the middle of roads. Many drivers drive too fast without care, even when pedestrians are there. Sometimes some drivers drink and drive fast. They made big traffic accident.

Why do such things happen? In my opinion, it is because many people didn't care for the traffic rules at all. They just walk or drive anywhere as they like, not thinking about others. If so for long, the traffic situations will go from bad to worse. It is believed that something should be done to improve the whole situation.

五、Science and Technology Makes us Live Better

With the development of science and technology, our society is improving fast. Among all the modern science and technology products, laptops are my favorite one. They are light and small. They are easy to carry. A laptop can get to the Internet outside, which helps us to get the latest information whenever we want. With a laptop, we can work, study and enjoy the entertainment anywhere we like. Using a laptop, I can keep in touch with my friends and family through e-mails and QQ at any time and in any place. I think in the future, everybody will have his or her own laptop.

五、Sunny, Saturday, March 17th

I took part in the “Civilized Citizen” activity with my classmates today. We got together at the school gate at 8:30 am and left for the People’s Park. On the way to the park, we found some people break the traffic rules. In the park, a few children were climbing the trees or drawing pictures on the walls. Many people were talking loudly in public. And on the ground, too much litter had been thrown here and there.

To change this situation, we began to pick up the litter and collect it, clean the walls, and plant trees. And then we told the children that climbing trees is dangerous and bad for the trees. Also, we politely told some people to keep their voice down and enjoy the quiet of the park. At that moment, we felt excited and proud.

Good manners are rather important to all of us. Though our today’s activities can’t perfectly solve the problem, I believe we can make people understand that even the simplest everyday activities can make a real difference to our lives.

Let’s work together to make the world a better place to live in!

五、 I'm very glad to have the chance to say something about pollution in front of the whole school. Now, I give you my views on it.

As we all know, the industrial pollution is here and there. It polluted air, water and earth. Though a great deal is already being done to do with it, the problem is still serious. Continuous population increase, smog and chemical waste produced by factories cars, not only influences our health, but also pollutes our environment. We do need clean air, safe water and healthy body.

In my opinion, everyone should start with doing some small helpful things. Such as reusing water, saving paper, never using plastic bags and remembering to turn off the tap and so on. We should know that this is the duty of every person, not that the government alone.

Thank you for listening.

五、 Paper Books or E-books?

It's reported that all schools in Korea will use e-books in 2015. Many people think this is good news because e-books have many advantages. Most importantly, they are good for the environment, since they can save lots of paper and trees. Besides, they are very convenient. To get a paper book, one has to spend a lot of time searching for it in a bookshop. But we can find e-books very quickly on the computer. With e-books, our teachers needn't write on the blackboard and we needn't clean the blackboard every day.

However, paper books also have some advantages. With paper books, we can make notes easily. It will be good for us to practice handwriting. It won't do so much harm to our eyes as e-books do.

I prefer e-books. It can make us enjoy life better. But e-book makers should do a lot of things to improve them so that they won't do harm to our eyesight.

五、 Good morning, everyone! Today I'm going to talk about fire accidents and the ways to protect ourselves.

Usually fire accidents are caused by carelessness. For example, some children like playing with fire. Some of the people leave the stoves on while they are away. Some people don't use the electricity safely and some set off fireworks carelessly.

What can we do to protect ourselves when there is a fire? First, don't be afraid. We should keep calm and be brave. We can pour water over ourselves and try to get out of the building as soon as possible. If there is too much smoke, we should crawl on our knees. We mustn't use the lift. We can also use the fire hydrant in the building to put out the fire if possible.

That's all. Thank you very much.
